## Russian Bristles in the Raw State

### Russian or European Bristles in Original Bundles

Russian or European Bristles are packed and imported into this country in casks of different sizes and weights, varying in weight from 100 pounds to 3000 pounds. The bristles are tied in bundles of different sizes and securely packed in casks.

# A FEW WORDS *about* OUR BRUSHES

THE BRUSHES shown in this book are the very best that you can buy, regardless of price.

We say this without hesitation or reservation, because we know by actual test that they will outwear, under proper use and care, any other line on the market today.

*Lucaset* Brushes are set in vulcanized rubber, which cannot be dissolved by alcohol, lacquer, benzine, hot glue, turpentine or grease.

We have never before shown as complete an assortment of fine brushes for every purpose as you will find illustrated and described in these pages.

The bristles are of the very finest, the QUALITY throughout is fully up to the known *Lucas* standard and every brush is fully guaranteed.

We ask that you read the *Lucas* guarantee on the next page. We ask further that you go through these pages carefully and select a few brushes for the purpose of testing them thoroughly in everyday use. If you will do this we are confident that you will appreciate their greater value and that you will realize why we enjoy the continuing confidence and patronage of so great a number of men who buy brushes and buy them knowingly.

# *The Lucas* *Guarantee*

---

IF any brush made by us and stamped with the name *John Lucas & Co., Inc.*, having been properly used in the material for which it was made, comes to pieces before it is fairly worn out, you may return it to us and we will replace it with a new brush.

There is a plain straightforward statement of our faith in our brushes. It is made with a full knowledge of what these brushes will do. It is a bond of protection to the buyer and to the user.

In your own best interests you should learn to insist on having the name *John Lucas & Co., Inc.*, stamped on every brush you buy.

# *Don'ts* for Brush Buyers and Brush Users

**DON'T** put a bristle brush in lime or any compound containing lime.

**DON'T** put a cement set varnish brush in shellac or any alcohol combination.

**DON'T** put a glue set brush in water.

**DON'T** put a duster in water, unless it is wire drawn or Set In Rubber.

**DON'T** use a paint brush as a duster.

**DON'T** put a varnish brush in water.

**DON'T** use a paint brush for varnish, though any varnish brush may be used in paint.

**DON'T** keep brushes, when not in use, in a hot or dry place, as shrinkage of the block will cause the bristles to loosen and come out.

**DON'T** think that a new brush is defective because a few bristles work out. All new brushes contain short, loose bristles which should be shaken out as much as possible before the brush is used. The best brush made will shed a few bristles in the first day's work.

**DON'T** forget that we replace any brush that is really defective in manufacture and that has not been misused.

Yours very truly,

*John Lucas & Co., Inc.*

# Special Notice

## Painters' Wall Brushes

WE would call attention to a few of our **Special Wall Brushes**, which will make exceptionally good leaders to attract trade to your general line of brushes. These special brushes have been selected on account of their good value and the popular prices at which they can be sold by the dealer, and the handsome profit which the dealer can make on these special wall brushes.

All these wall brushes will be found listed under their regular brands with full description and prices in their proper place in our new Brush Catalog.

Brands or Names <b>Wall Brushes</b>	Widths in Inches	Suggested Dealers Retail Prices
Dandy	3 inch	\$ .40 each net
Penn	3 " " "	.45 " "
Penn	4 " " "	.75 " "
Pacific	4 " " "	.85 " "
Wrk-Wel No. 50	4 " " "	1.00 " "
Atlantic	4 " " "	1.50 " "
Wrk-Wel No. 75	4 " " "	1.75 " "
Our Special	4 " " "	2.00 " "
Wrk-Wel No. 100	4 " " "	2.25 " "
Lucaset No. 8	4 " " "	2.50 " "

All these brushes are especially attractive in style and finish, and will attract trade to any dealer's stock of paint brushes.

Any dealer, either large or small, who, from lack of opportunity or experience, should not know just what wall brushes would be the best for him to select, will make no mistake if he should order the above assortment.

## Our Kismet Stucco *Set in Rubber*

Sectional View

**Our Kismet Stucco** is made with three rows of Black Chinese Bristles or so called "Solid Center" and are made in such a way that they do not gap or swallow tail, but will wear up shorter without getting stubby than other brushes.

Our  
Kismet  
Stucco, are  
all made  
**Set In  
Rubber.**

The Bristles  
are of the  
Best Black  
Hongkong  
**Brand of  
Chinese** and  
have plenty of  
spring and elastic-  
ity, and on account  
of the **Third Row** will  
lift up a greater amount  
of material than the ordi-  
nary Stucco brush.

They are recommended very  
highly by painters who have used  
them as being most satisfactory.

07

### Kismet Stucco

## Lu-Co-Flat Kalsomine

All Gray Russian Bristle. Bristles **Set in Rubber** and made with four rows so that one row of bristles helps support the other and gives the bristles much more spring and elasticity.

For a medium priced **Dutch Kalsomine** we consider this the very best that has ever been put on the market.

These brushes are 7 inches wide by  $1\frac{1}{2}$  inches thick and the bristles are  $4\frac{1}{2}$  inches long.

Our  
**Lu-Co-Flat**  
Dutch Kalsomine has been designed to furnish the trade with a good all **Gray Bristle Brush** at a price quite a little lower than brushes of this kind and quality are being sold at under present conditions.

Our  
**Lu-Co-Flat Dutch Kalsomine** is recommended for putting on **Our Lu-Co-Flat Wall Finish**. It also is a most practical Paper Hanger's Paste Brush.

## Dutch or German Kalsomine Brushes Set in Rubber

014

Sectional View

Finished Brush

Nos. 362, 363, 364, 232, 233, 234 are our new Metal Back Dutch Kalsomine Brushes, set in Vulcanized Rubber, fitted with Screw Detachable Handles. These brushes are made from the very best of all Gray Russian Bristles, and are very full in weight. The bristles are Set in Vulcanized Rubber in an Aluminum Metal Block, which makes them very light in weight and the back of the brush is made of Brass Nickeled. This brush is the handsomest finished and the very best working brush on the market, and on account of the way the brush is constructed it is a very light and well balanced tool in the hands of the workman. The bristles being Set in Vulcanized Rubber prevents them from ever falling or coming out, and the blocks cannot split, which makes this brush practically indestructible. It can be used in any kind of material which will not burn or rot the bristles.

With this new Metal Back Dutch Kalsomine there is no chance whatever for the block to split, as it is made of Aluminum Metal, which is very light in weight, and the backs are made of solid brass nickeled, with a screw hole for the handle, which gives them a very handsome finish.

No.	Sizes	Length Bristles	Per Dozen	Each

## Grainers' Tools

356

### The Davis Patent Grainer

With Latest Improvements.

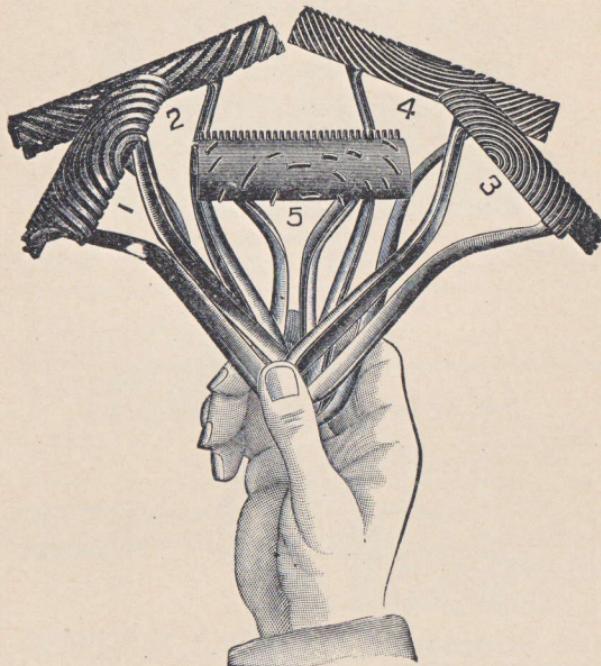

The above illustration will give you an idea of what can be done with these graining tools. With the Davis Patent Grainer it is next to impossible to reproduce two doors alike.

A set of Grainers consists of three rolls, made of the best rubber, 5 inches long by  $1\frac{1}{2}$  inches in diameter. The corrugated roll imitates any known growth of wood. The other vein roller reproduces quarter-sawed oak grain. The roller comb, with three different sizes of combs, is especially valuable as an adjunct to the veining rollers to be used in connection with them in the graining of plain woods, as in stiles and rails. Therefore, one will be prepared to do any kind of oak, ash, chestnut, etc., graining without the use of any other tools than these three rolls.

The Up-to-Date Grainer, a valuable treatise on graining, with full directions for manipulating the grainers, is furnished Free with every set.

Price.....	Per Set	.....
------------	---------	-------

## Ridgely's Flexible Grainers

354

*One Set*

### The Ridgely Flexible Grainer

A set of 5 Ridgely Flexible Grainers will produce perfect imitations of all grained woods in less time than has ever before been possible.

With the flexible Grainer heart work or quartered oak can be produced just as readily as straight grain.

Nos. 1 and 2 are used for producing large effects, such as Walnut and Mahogany.

Nos. 3 and 4 produce open and heart grains.

No. 5 produces Quartered Oak grain and has attached to it the Comb or Blender.

## Wire Brushes

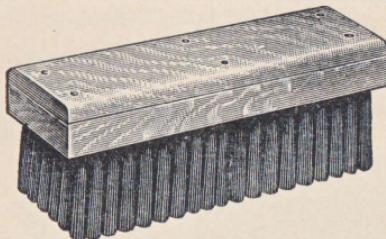

377

### Round Wire Duster

This handy brush is made of No. 33 round tempered black steel wire and takes the place of a bristle duster. It will be found very effective for use on mouldings, and in crevices and cracks. The length and stiffness of the wires permit of access to the bottom of cracks which is impossible with a bristle brush.

No.	Per Dozen
10 .....	.....

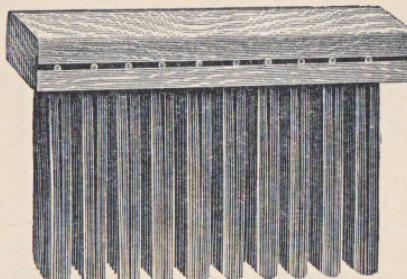

378

### Flat Wire Scrub

**Solid Back.** This brush is made in a similar manner to No. 1, but with the wires 1½-inches in length. It is made particularly for scouring and scrubbing stone, iron and metallic surfaces, such as bridges, boilers, engines, etc., from which it is necessary to remove blistered paint, scales, rust, or other matter.

No.	Per Dozen
5 .....	.....

379

### Flat Wire Casting or Foundry

the brush is half worn out. The wires are 4 inches quality steel accurately tempered to prevent quick crystallization and the consequent snapping and breaking off.

No.	Per Dozen
1 .....	.....

# John Lucas & Co., Inc.

NEW YORK

CHICAGO

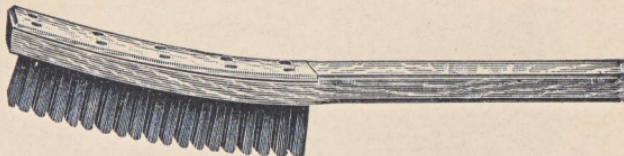

PHILADELPHIA

BOSTON

PITTSBURGH

OAKLAND, CAL.

## Wire Brushes

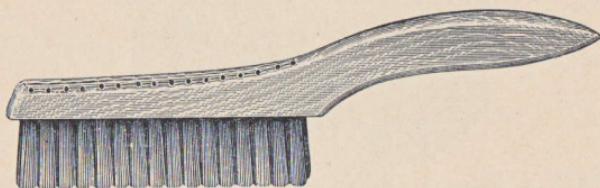

374

### Long Handle Scratch

**Round Wire.** This brush is made of No. 33 round black tempered steel wire and designed especially for scouring and scrubbing purposes. The long narrow-block makes it adapted to surfaces upon which No. 3 cannot be used.

It will be found very effective for getting at crevices, grooves, corners, and other out-of-the-way places, such as under the eaves of buildings, and for removing rust, old paint and discolorations from iron, stone or brick surfaces where only light work is necessary.

No.	Per Dozen
2.....	.....

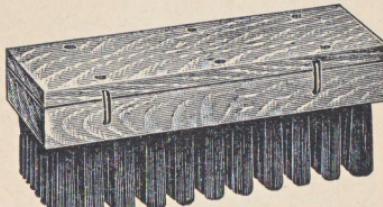

383

### Shoe Handle Scrub

**Round Wire.** This brush is made of the same size wire as No. 6 and designed for similar purposes, but the narrow face makes it adapted to surfaces which are not wide enough to permit of the use of the No. 6.

No.	Per Dozen
4.....	.....

385

### Hand Scratch

**Round Wire.** This brush is made of No. 33 round black tempered steel wire and is designed for use on large surfaces, such as sides of buildings, doors, windows, floors, and finished hardwood work. The shape of the brush enables it to cover a much larger area than the narrower No. 2.

It takes the place of No. 1 sand paper — does the work quicker, easier and leaves a much smoother finished surface.

No.	Per Dozen
3.....	.....

# John Lucas & Co., Inc.

NEW YORK

CHICAGO

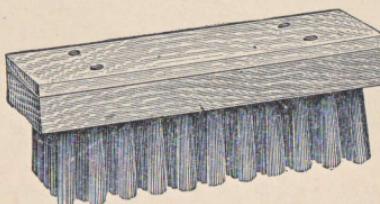

PHILADELPHIA

BOSTON

PITTSBURGH

OAKLAND, CAL.

## Wire Brushes

387

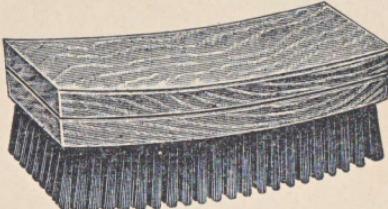

### Heavy Scratch or Scrub

Is made of No. 33 black tempered steel wire, extra heavily filled; block with an extra thick top, firmly screwed on instead of nailed, to keep the brush from coming apart under heavy usage.

This brush takes the place of No. 1 sand paper and will be found the most effective article on the market for cleaning off blackened stone buildings or brick surfaces.

No.	Per Dozen
7.....	.....

### Curved Back Round Wire Scrub Brush

376

### No. 6—Rocker Face. Curved Hand Scrub

Is made of No. 35 black tempered steel wire and designed for producing a highly polished surface after Nos. 2 and 3 have been used.

The fine wire, on a wooden surface, acts in a similar manner to the grains of No. 0 sand paper. The curved face of the brush enables a painter to concentrate his energy in one place, thus enabling him to produce more rapid results for the energy and time expended than are possible with a flat surface brush.

No.	Per Dozen
6.....	.....

### Counter Dusters

389

### Crescent Plain Red Handles. Made from all Gray Tampico. Suitable for foundry use.

## Badger Hair Brushes

464

### Triple Badger Hair Flowing

Polished Tin Bands. Polished Handle Tips. Chiseled. Triple thick. Extra quality

of Badger Hair, mixed with fine French bristles, which makes a better varnish brush for carriage work than a strictly pure Badger.

Width	Per Dozen
1½ inch.....	.....
2 " .....	.....
2½ " .....	.....

466

### Single Chiseled Elastic Badger Hair Flowing

Tin Bands. Polished Handle Tips. Single Thick. Chiseled Points. For Fine Varnishing. All our Elastic Badger Flowing are made from all Badger Hair mixed with a little French Bristle to stiffen the hair, and are next in point of stiffness to bristles. They are as good a brush as is generally sold for a strictly pure. They are used for Fine Cabinet, Piano, Carriage and Furniture Finishing, and have invariably given satisfaction.

Width	Per Dozen
1½ inch .....	.....
2 " .....	.....
2½ " .....	.....

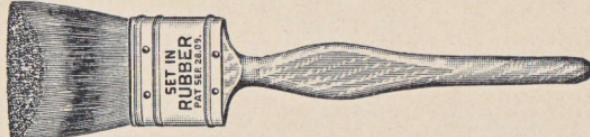

468

### Double Chiseled Elastic Badger Hair Flowing

Double Thick. Chiseled Points. Same style and quality as our Single Chiseled Elastic, except made double thick.

Width	Per Dozen
1½ inch.....	.....
2 " .....	.....
2½ " .....	.....
